Subject: Dioxin Reassessment Risk Evaluation and Supplemental Groundwater Tracing Study reports for Arkwood, Inc. Site, Omaha, Arkansas

Stephen,

Good afternoon. Per the approved respective work plans, attached are a transmittal letter and the Draft Dioxin Reassessment Risk Evaluation and Supplemental Groundwater Tracing Study reports for the Arkwood, Inc. Site. The analytical data and validation reports have been uploaded to and are available on the FTP site.

We have previously received the analytical data for the split samples analyzed by the EPA but would appreciate if you would upload the data validation packages for the EPA samples to the FTP site.

If you have any questions, please let me know.

Best Regards,

James Fleer

Director, Environmental Services

McKesson Corporation
